

Abazar Adam

Software Engineer — Cybersecurity Engineer

abazeradamwork@gmail.com | +60 17-580 3025 | github.com/AbazarAdam | linkedin.com/in/abazaradam

PROFESSIONAL SUMMARY

Computer Science (Cybersecurity) student at Multimedia University (MMU) with hands-on experience developing software platforms, backend systems, automation tools, and security-focused applications. Strong foundation in Java, Python, SQL, object-oriented programming, APIs, Git, Docker, and software engineering principles. Founder of EvoTech, delivering software solutions and technical services for 50+ clients. Passionate about building scalable applications, solving complex technical problems, and contributing to high-performing engineering teams.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, Bash

Software Engineering: OOP, Data Structures, Algorithms, REST APIs, SDLC, Testing, Debugging

Tools: Git, Docker, Linux, FastAPI, Flask, MySQL

Security: OWASP Top 10, Secure Coding, SIEM, Vulnerability Assessment

Concepts: System Design, Database Design, CI/CD Fundamentals, Cloud Fundamentals

PROJECTS

CyberThreatX – SOC Platform

- Built SOC platform with real-time log ingestion, Sigma-based detections, RBAC, alert triage, and threat intelligence integration.
- Developed Flask backend and Dockerized deployment architecture.
- Implemented anomaly detection workflows and scalable monitoring pipelines.

ReconMaster – Advanced Reconnaissance Framework

- Developed modular reconnaissance framework using FastAPI, AsyncIO, Playwright, Nmap integration, and structured reporting.
- Designed scalable backend architecture with proxy rotation and rate-limiting controls.

CyberGuardX – Security Assessment Platform

- Built web platform featuring phishing URL detection, email breach analysis, password strength assessment, and OWASP vulnerability scanning.
- Generated automated security reports with remediation guidance.

EXPERIENCE

EvoTech – Founder & Technical Lead

2024

- Delivered software solutions, websites, automation systems, and IT services to 50+ clients.
- Managed project lifecycles including requirements gathering, development, testing, deployment, and maintenance.
- Led technical decision-making and collaborated with clients to deliver production-ready solutions.

Fawrico Platform – Cybersecurity Consultant & QA

2026

- Conducted security assessments, vulnerability analysis, QA testing, and platform validation.
- Worked with developers to improve application reliability, functionality, and security.

EDUCATION

Bachelor of Computer Science (Hons.) – Cybersecurity

Multimedia University (MMU), Malaysia

2023–Present

Dean's List Award (2025)

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Software Engineering, Database Systems, Computer Networks, Operating Systems

CERTIFICATIONS

Fortinet Certified Associate in Cybersecurity | FortiGate 7.6 Operator | Cisco Ethical Hacker | Cisco Cyber Threat Management | Cisco Network Defense

LANGUAGES

Arabic (Native) | English (Fluent) | Spanish (Beginner)
